### CONCRETE SLEEPER ENGINEERING SPECIFICATIONS:

All Concrete Sleepers are 50MPa and comply with AS3600/2019

Sleepers are engineered for use with retaining walls which satisfy the following conditions/limitations:

- \*Back wall fill is free draining consisting of sand and or gravel.
- \*All sub surface water is drained by means of an agricultural drain or other suitable method.
- \*Sleepers are handled with care during transportation and erection on site.
- \*No machine compaction of back fill is allowed within a distance of 75% of the wall height.
- \*Walls over 1 metre may require council permission and engineers advice.

Prices subject to change without notification.
